DETAILED ACTION

Response to Amendment

The Amendment, filed on March 29, 2005, has been entered and acknowledged by the Examiner.

Cancellation of claims 1-9, 11, 12, 15 and 21 has been entered.

Claims 10, 13, 14 and 16-20 are pending in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the title, pursuant to MPEP 606.01, the title has been changed as follows,

--MANUFACTURING OF FIELD EMISSION DISPLAY SCREENS BY APPLICATION OF PHOSPHOR PARTICLES AND CONDUCTIVE BINDERS--.

In the specification,

At page 1, please amend the sentence that was inserted on a separate line before the heading Background of the Invention by the Preliminary Amendment filed on December 4, 2002, as follows:

--This application is a continuation of U.S. Patent Application Serial No. 09/054,552 filed April 3, 1998, now abandoned, which is a divisional of U.S. Patent Application Serial No. 08/587,722 filed January 19, 1996, now U.S. Patent No. 5,744,907 issued April 28, 1998, the entirety of which is incorporated herein by reference.--

Allowable Subject Matter

Claims 10, 13, 14 and 16-20 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 10, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 10, and specifically comprising the limitation of simultaneously applying a phosphor material and a binder material on the screen, the binder material holding the phosphor material to the screen, the binder material comprising a conductive material.

Regarding claims 13, 14 and 16-19, claims 13, 14 and 16-19 are allowable for the reasons given in claim 10 because of their dependency status from claim 10.

Regarding claim 20, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 20, and specifically comprising the limitation of providing a faceplate comprising a transparent screen having at least one side, applying a transparent conductor to the side of the screen, simultaneously applying a layer of phosphor and conductive binder material to the transparent conductor, the binder material holding the phosphor to the transparent conductor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
